Office Action Summary

Art Unit: 1617

The election of species requirement is withdrawn; therefore, applicants' traversal is moot.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9, 12, 15, 19-21, 24, 26, 29, 31, 34, 36, 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Hubbell et al '016.

Hubbell et al '016 teach polymerized and crosslinked macromers (abstract). Macromers comprising a water-soluble component, a hydrolysable component and a photo polymerizable component (structure J. figure 1, column 7, lines 52-56). Dextran (column 8 line 45), polylactic acid (column 8 line 58), and acrylates (column 9 line 11) are disclosed. Enzymes are specified (column 10, line 34).

Claims 30, 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 30 depends on a cancelled claim.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double

Art Unit: 1617

patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 9, 12, 15, 19-21, 24-26, 29, 31, 34, 36, 37 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 6,497,903. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims encompass the patented claims regarding polymers and the patented claims encompass the instant claims regarding crosslinking waxes.

Claims 10, 11, 13, 14, 16, 17, 22, 23, 27, 28, 32, 33 are would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
